From the Director's Desk

Prof. Rajat Moona
Director, IIT Bhilai

Welcome to IIT Bhilai. You and your family members have put in enormous efforts to make it through highly competitive exam and I take this opportunity to congratulate you on securing admission to IIT Bhilai. This is indeed your future-defining journey that you are taking now. I am sure that you will be as thrilled as us and must be looking forward to joining the institute at the earliest.

Welcoming the new students in the campus is an indication of a new beginning and the growth. At IIT Bhilai we look forward to this fragrance of newness. As the institute is one of the new IITs, we are still on our growth trajectory and you shall be definitely a part of this history of shaping the institute's growth. As we are on it, I am sure that you shall be part of our permanent campus where the construction of the campus buildings is in full swing.

The Institute hopes to be a part of your journey and provide you a stimulating environment to shape your ideas, enthusiasm, energy, passion and provide satisfaction and a sense of pride for you to be part of this great Institute. As a new student who shall be entering the campus of the institute perhaps the first time, you may be having some questions and apprehensions.

This brochure shall provide you some insights into your future place and help you learn new things and plan out activities that you shall carry out while at IIT Bhilai.

In the backdrop of the disturbed timetables for the academics that the students and the institute faced in the past few months due to pandemic situation in the world, we now seek to have that past behind us and work towards a safer environment for academics. We seek the cooperation of all of you while we travel our journey together.

Looking forward to seeing you in the campus (virtual or physical – in whatever way possible).

Greetings from IIT Bhilai

A hearty congratulations and a warm welcome to you all. Students are the heart of the campus and it is they who make it lively. Here, at IIT Bhilai you will get ample opportunities to excel in academics as well as in extracurricular activities. Your technical competency would be trained and mentored by the faculty members who are among the best in their fields. In campus life, you will also get a chance to develop hobbies based on your interest and passion. You are entering into a phase that you will cherish for the rest of your life. Try to make the most out of it. Last year has been challenging for all of us and with coordinated efforts the outgoing batch graduated on time. You are more than welcome to reach out to students' affairs office if case of any doubt or problem. Wish you all a very pleasant and memorable stay at IIT Bhilai.

I extend my warm greetings to the incoming students of the Institute. May it be JEE (Advanced) or JAM or GATE, you all have won the toughest battle of your realm to get admitted to one of the premier institutes of the country. While I write this welcome note, the nation and the whole world is fighting another battle to win over COVID-19. This pandemic has brought a lot of changes to our lifestyle and the academic study is no exception to it. Following all the guidelines issued by the state and center, we are striving to provide the maximum opportunity for our students to learn and grow during this pandemic.

IIT Bhilai has adapted modern style of learning with an academic curriculum that provides opportunity for students to excel. With a good mix of undergraduate and postgraduate students on campus, you will have an enthralling journey with good learning for profession and life in general during your course of study.

Hoping that things will turn back to normal soon, we are eager to see you on campus!

A very warm welcome and greetings to you all, on behalf of the Student Mentorship Program (SMP), IIT Bhilai. Even though 2020 was exceptionally challenging, it has shown us that the Institute is not just a spot on the map. It is rather defined by its students, staff and faculty members, giving their best to help each other. I encourage all students to further promote this culture. At the same time, I advise you to cherish and savor the years you will be spending in association with this esteemed Institute. Let this new academic year begin with the zeal to fulfil your hopes and aspirations. Your development and achievements here shall only be limited by the bounds you place on yourself. Amongst the many facilities provided by the SMP, the primary one is to enable a productive interaction and receive guidance from mentors and faculty advisors. So, fully harness your potential here.

Welcome to IIT Bhilai! We know you will have many doubts. Please visit **Polaris** website (<https://polaris.iitbhilai.ac.in/index.php>) where you will find all the information regarding academics, documents and many more.

Dr. Rahul Jain
Faculty In-charge,
Students' Affairs

Dr. Jose Immanuel R
Faculty In-charge,
Dean of Academic Affairs

Dr. Rukmankesh
Faculty In-charge,
Student Mentorship Program

Greetings from IIT Bhilai

Dr. Sanjib Banerjee
Associate Head,
Department of Chemistry

The Department of Chemistry is committed to engage in high quality research and pursuit of excellence in teaching. It offers Institute core courses and departmental electives for undergraduate BTech and postgraduate MTech students of Engineering in the Institute. It also offers a two-year MSc program and a PhD program in Chemistry. The Department has distinguished faculty members, trained at renowned institutes in India and abroad. The Department offers a vibrant atmosphere to nurture the spirit of scientific inquiry and to pursue cutting-edge research in a highly encouraging environment.

Prof. Santosh Biswas
Head, Department of Electrical
Engineering and Computer Science

On the behalf of the department of Electrical Engineering and Computer Science, I congratulate you all on qualifying through various competitive exams of the country and making it to IIT Bhilai. A warm welcome to you all. IIT Bhilai harbors the unrelenting ambition to be in the vanguard of technological leadership and innovation, both nationally and globally. The department has launched a new discipline in Data Science and Artificial Intelligence (DSAI) with BTech program in the year 2020. Based on the popularity and demand for the BTech program in DSAI, the department has started PG programs in DSAI from 2021. Your technical journey in the department will be comprising of a vibrant set of theoretical courses, hands-on experiments in laboratories having latest equipment and interesting research projects. Apart from the technical aspects, I hope that all of you will participate actively in co-curricular activities and make your stay in IIT Bhilai an enjoyable and enriching experience.

Prof. P.D. Srivastava
Head, Department of
Mathematics and Department of
Liberal Arts (also Dean Faculty Affairs)

On behalf of the Department of Mathematics and Liberal Arts, I would like to take this opportunity to extend a heartfelt welcome to all of you. Our virtual association, owing to the Covid-19 pandemic, has been since quite a few months now, but being in the campus and personally interacting with your peers, seniors and faculty members would definitely give you all the very best experiences.

You all might have done lot of hard work to become a part of IIT Bhilai. This is just a stepping stone of your career. You all must put in your best of efforts to excel not only in studies but for your all-round development as well.

I wish you all the very best for a bright future. May you excel in all walks of life and take the name of this Institute to new heights.

Greetings from IIT Bhilai

I would like to heartily congratulate and welcome all students who recently secured admission into the Department of Mechanical Engineering, IIT Bhilai. Since its inception in 2016, our Department has witnessed a steady growth in terms of number of students graduated, highly qualified faculty members, well-trained laboratory staff, various outreach activities, involvement in cutting edge research including high quality publications in international journals and externally funded projects. Our modern course curriculum is duly complemented with the state-of-the-art laboratories and research facilities. We strive to build an academic environment by promoting innovation and hands-on training-based teaching and learning platform. We wish you all a pleasant stay at IIT Bhilai and great professional career ahead.

Dr. Soumya Gangopadhyay
Head, Department of
Mechanical Engineering

A hearty congratulations on getting into IIT Bhilai and on behalf of the Department of Physics, I welcome you on board. You all are our most valued assets. During the next few years at IIT Bhilai, you will be trained, mentored, and surrounded by people who are among the best in their field. The Department of Physics came into existence along with the establishment of the IIT Bhilai in 2016 and has already made its mark at the national level with several sponsored research projects, national-level awards, research collaborations across the country and globe. The solid foundation of state-of-the-art undergraduate teaching of BTech students and postgraduate degree programs is backed by a group of very bright, ambitious and young faculty members. The Department is thriving and expanding rapidly to be one of the prominent departments within the Institute and country.

Dr. Dhriti S Ghosh
Associate Head,
Department of Physics

On behalf of CoSA, I would like to extend a warm and heartiest welcome to each one of you to IIT Bhilai. Past two years have been rough for all and yet you have made it to the prestigious IIT system. With all your efforts and patience paid off, the wait for the beginning of a completely new and exciting phase of your life as an IITian has now ended. Here you will find exceptional experiences which will help you to grow, develop, and explore new interests helping you fully realize your potential. We welcome you to witness a culture of diversity, tradition, commitment to academic excellence and a plethora of opportunities to grow and develop. These 4 years of under-graduate degree shall not only help in igniting the best of scholastic achievements but also endow you with a wide range of exploration and explication in all sorts of hobbies and pursuits. You make friends for life here, and small and significant steps will render you in becoming better humans and professionals in years to come. I am sure you will enjoy your stay at IIT Bhilai and will contribute to positive growth as a part of this esteemed institution.

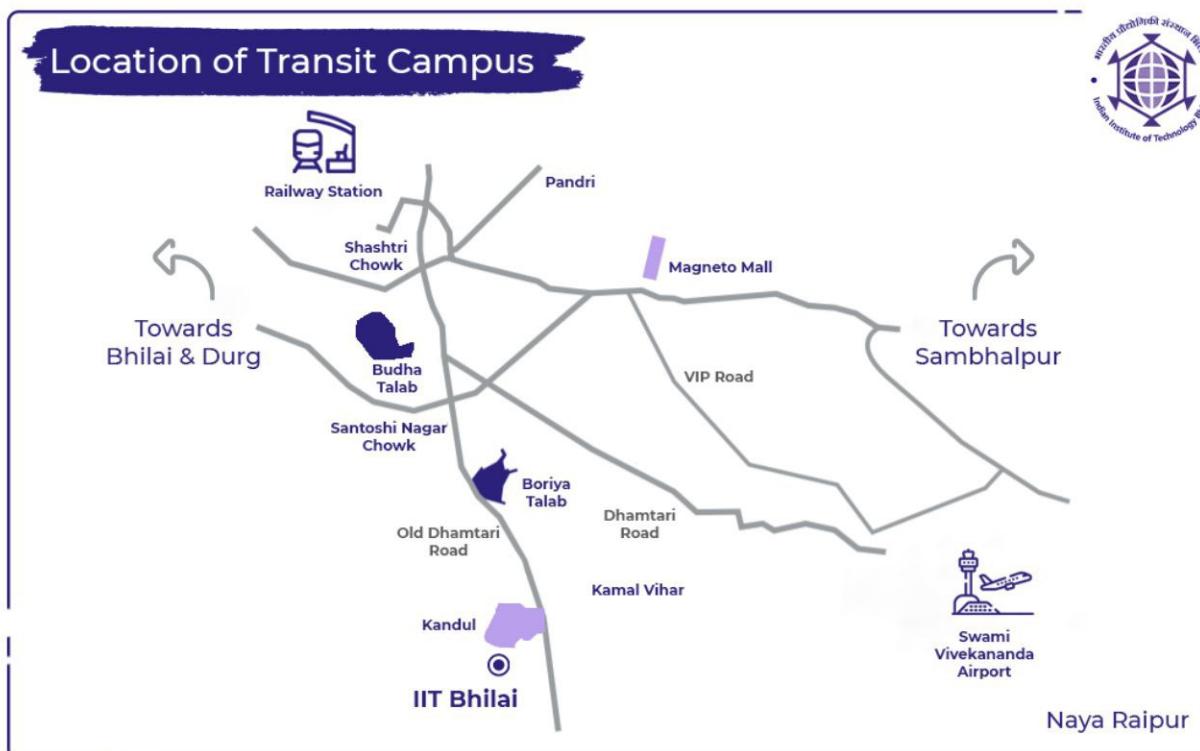

Abhishek Yadav
President,
Council of Student Affairs
(CoSA)

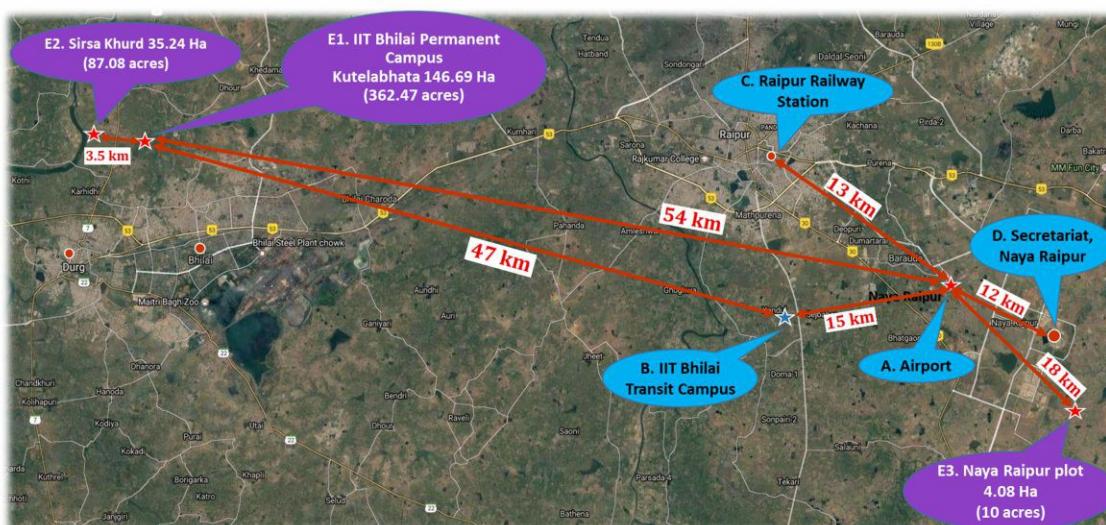

IIT Bhilai - At a Glance

IIT Bhilai

Indian Institutes of Technology (IITs) are centrally funded, autonomous institutes encouraging Academic Excellence. There are 23 IITs and IIT Bhilai is one among them which was established in the state of Chhattisgarh by the Ministry of Human Resource and Development in the year 2016. The Institute offers Bachelor of Technology (BTech), Master of Technology (MTech), Master of Science (MSc) and Doctoral programs (PhD) in various departments. IIT Bhilai permanent campus is under construction and it is expected to be completed soon. Till then we continue to operate from Government Engineering College (GEC) Raipur as our transit campus.

Location of Permanent Campus

IIT Bhilai - At a Glance

Proposed Campus Versus Progress

The permanent campus of IIT Bhilai is being constructed at Bhilai in Durg district of Chhattisgarh. It is adjacent to the Bhilai Steel Plant which is one of the largest steel plants of India. IIT Bhilai is allotted more than 450 acres in three land parcels in Kutelabhata and Sirsakhurd villages in Durg District and in Banjara village at Naya Raipur in Raipur district. At present construction work for the Phase 1

Stage 1 project is progressing in Kutelabhata land parcel. This location is about 6 km from Durg Junction railway station and about 54 km from Swami Vivekananda airport. IIT Bhilai shall be developing its Industry Interaction centre and Research park in 10 acres allotted in Banjara village in Naya Raipur.

IIT Bhilai provides a unique structure of fractal academics wherein students are engaged with advanced topics in their curriculum without increase in academic load. The structure provides a natural mechanism for students to indulge in projects along with courses.

Faculty

A glimpse of the Friendly Cricket Match between Faculty and Staff members.

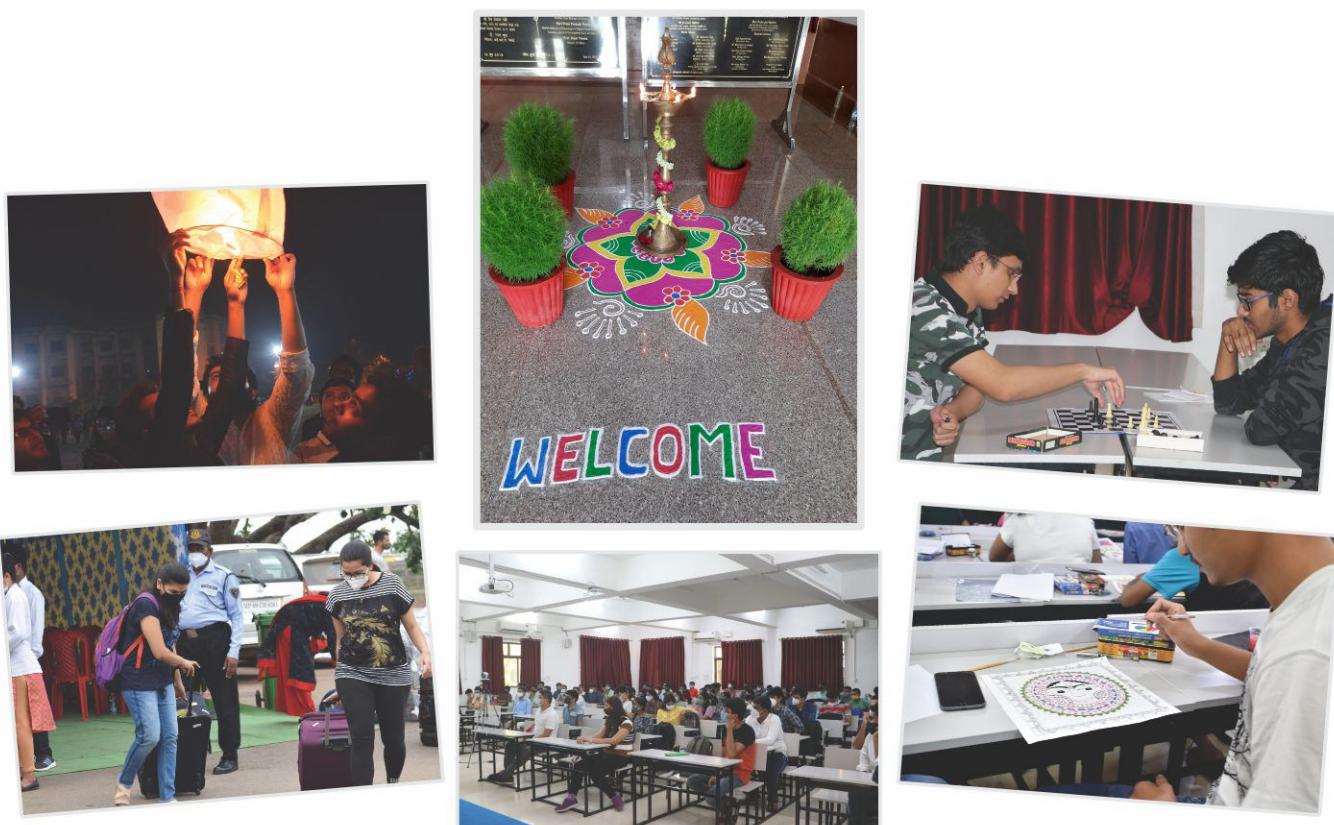

IIT Bhilai, on its roster, has more than 60 faculty members, working in various cutting-edge research areas spread over engineering, mathematical and scientific disciplines, and liberal arts. The faculty strength is expected to increase rapidly in the coming months, as the institute is in an active phase of hiring. The faculty members have exposure to world-class education and research, as doctoral students and postdoctoral researchers, in various top-ranking laboratories and institutes in India and abroad. The Departmental Undergraduate Committee (DUGC) and Departmental Postgraduate Committee (DPGC) of each department provides academic support and advice to the students on all academic matters.

Life at IIT Bhilai

At IIT Bhilai, you will witness the esteemed culture of innovation, passion and determination. The transit campus of IIT Bhilai is serene, pollution-free, tranquil, energetic, safe and secure place. The campus is self-subsisting in terms of well-equipped sports lab facilities, hostels and academic building. Institute houses a wide range of clubs and societies that explore various dimensions of passions and skills, such as Designing, Photography, Quizzing, Literature, Music, Art, Astronomy, Astrophysics, Sports (e-sports too) and what not. The student body has fabricated an arena for cultural, sports and technological events.

IIT Bhilai campus has 3 hostels named Castle Dio, Castle Ena and Castle Tria. The hostel life at IIT Bhilai is a true realisation of comfort and safety. With cozy accommodation and healthy mess facilities, Institute boasts a tech cafe and a night canteen to cater all the foodie cravings. Institute offers phenomenal liberty to manage, organise, lead and even initiate crucial decisions related to academics and other non-academic activities. With freedom to explore the campus premises at any hand of clock, there ain't any strings to your wings.

The campus has large grounds for football, cricket and basketball. The volleyball and badminton courts are built within the hostels. The campus also consists of a fully functional state-of-the-art gymnasium, well equipped with modern machines for the benefit of students. Each hostel has a recreational room for watching TV and playing indoor games like carrom, table tennis, snooker, etc. The hostels also house student activity arenas for music, art, robotics, electronics and other student related enthusiastic activities.

Images depicting the life at IIT Bhilai.

Glimpse of Students' Activities

NSS Activities

National Service Scheme (NSS) is a voluntary service at IIT Bhilai to remind students of their moral and social responsibilities towards society. The NSS volunteers believe in building a better society and work passionately towards this vision by conducting simple yet effective voluntary activities that serve the society. NSS activities include regular free classes for rural children, plantation drives, surveys of existing plants and trees in and around the campus thus creating a healthy database of plants around us, health and safety seminars, technical workshops in schools, self-defense classes, donation drives, bird sheds, a Medium Blog where pass-outs can share their experiences and lot more to pop out in coming future. For more information on the activities, please visit nss.iitbhilai.ac.in.

NSS activities at IIT Bhilai.

Cultural Activities

Cultural Meet

IIT Bhilai focuses on developing the soft skills of the students and brings out their creative side. With a tight academic schedule running throughout the year, cultural events are the key space for students to express themselves. Keeping this in mind, events such as Ciao, Cult-Nite, Xpressions, Reverb, MUN, Theatre Night and Techno-Cultural Fest-Meraz are organised by the students within the campus. Students also participate actively in cultural events organised by various other institutes. Over the years, the cultural activities at IIT Bhilai have thrived with encouraging engagements of the students in showcasing their talents. In the inter-IIT Cultural Meet, IIT Bhilai's contingent has taken part in various events like story writing, debate, stage play, poetry competition, group-dance, singing and photography.

Meraz

Meraz, the IIT Bhilai's very own fest was first celebrated in 2018. It is a Techno-Cultural fest that proves to be a good refreshment activity for the students. The perfect blend of tech and cultural events caters to the taste of all kinds of participants. Cultural events like dance competitions, battle of bands, nukkad nataks and fashion shows add to the vibrance of the fest. If you feel that this fest of an IIT isn't sci-fi enough, we've got a plethora of sci-tech events : Code Crusade, Robo-Kabaddi, Robo-Soccer and Arena Haste. These events bring together people from institutions from all over the country. eSports is the thing nowadays and the FIFA and CSGO competitions in Meraz bring out that inner gamer in you. The list of events and activities go on and on : Speed Dating, Beg Borrow Steal and Dare to Dare.

Glimpse of Students' Activities

Where words fail, music speaks.

Sports Activities

Prayatna

Prayatna is the annual intra-institute sports tournament aimed to kindle the sportsman spirit in the budding technocrats. This is an amalgamation of team spirit and healthy competitive spirit which goes on in a three-month long array of eight varied sports fixtures viz. table tennis, chess, volleyball, badminton, football, cricket, athletics and basketball. Prayatna is another feather in the cap of this newly established yet fervently developing institute. Every year Prayatna drives a wave of energy and Joy among students.

Happiness is sometimes just a sound of a ping pong ball.

The biggest benefit of getting into a new IIT is that you get a lot of experience and opportunities, you just need to be curious enough to grab them. Having lived the amazing campus life, I can truly say that you are also going to enjoy it. Participate in clubs, have good contact with seniors, make great friends and you are good to go! Wish you a grand success ahead.

- Tanish Gupta, CS-18

Glimpse of Students' Activities

Inter IIT Sports Meet

This is the annual inter-IIT sports meet where the best sports persons among IITs compete. The very best of our athletes and players participate in various tournaments like basketball, volleyball, chess, table tennis, athletics and badminton. The sports culture at IIT Bhilai has developed over the years because of the sheer determination and teamwork of the students. Sports Council is always there for developing the enthusiasm and backing the players on their way to tournaments.

Technical Activities

Tech Meet

Tech Meet is an informal technical event organized across various IITs. It started in 2012 at IIT Kanpur as pan India initiative to get the best minds of the country to understand the problems and use technology to create innovative solutions. The students of IIT Bhilai participated in the 9th Tech Meet which was conducted online by IIT Guwahati during 26th-28th March, 2021.

IIT Bhilai Motorsports

IIT Bhilai Motorsports is a student team of motorsports enthusiasts. This students club was established in 2017 and since then it is actively designing and fabricating All Terrain Vehicles (ATVs) whilst competing in national level ATV competition. The team participated in ESI 2019 held in Pune to mark its debut. IIT Bhilai Motorsports made its debut in SAE India BAJA, the largest ATV competition in India in the year 2020 and was placed overall 33rd in its virtual round (and 2nd among all participating IITs). IIT Bhilai Motorsports seeks to bring development in automotive technology by applying engineering concepts, hence bridging academics with the practical world.

Messages from IIT Bhilai Alumni

Very warm welcome to IIT Bhilai. After years of rigorous preparation, you finally made it. Don't get stressed due to sudden unfamiliarity some of you may witness during your initial days. Interact with your seniors. Do not hesitate to come out of your comfort zone and explore new things. Many of you may face existential crises by comparing yourselves with others but keep one thing in mind - we are all raised in distinct cultures and have different skills. Academically, learning to code is a good practice. It keeps your mind active and will help you in getting a job. So doing it for 2-3 hrs per day is recommended. Do what works best for you. I wish you a great career ahead.

- Sanskar Jain, EE-17, BTech

Hola...you cleared one of the toughest examinations in the world ! Welcome to the world of diversity! Till now you have met people from your area,culture and societybut in our institute you will meet people from very different cultures...you will get to know the real meaning of diversity. You will realise humans are so similar yet so different. So make lots of friends,enjoy different festivals and make the best of your time here!

- Vanisha Agrawal, CS-20

Messages from IIT Bhilai Alumni

I'm gonna keep it simple - Work hard and have fun! You have four years to spend, so try out new stuff! Keep an eye on academics, but don't stress over it too much either. And make a lot of friends! A good balance of academics, fun, and friends can make these four years extremely productive and memorable.

– Aditya Rajesh, EE-17, BTech

If you want something, go get it yourself. The universe will not help you unless you initiate it. Starting something is the most difficult part of every project, even in life. Push through it, and you shall succeed. Don't sit around waiting for a miracle to happen, make it happen. Above all, learn what is important in life, and be kind to everyone, most importantly to yourself.

– Rohit Das, CS-19, MTech

My campus experience taught me more than what I learnt in the last 20 years. The memories you make here, you will cherish for life.

– Chirag Gaur, ME-19, MTech

Congratulations and Welcome to IIT Bhilai Family. From here onward, you are going to begin a new chapter of your life. Throughout your stay here and life ahead: (a) learn from Failures, while striving for Success. (b) make Memories, besides doing Assignments. (c) give Happiness to yourself, while giving your Best Shot. (d) follow your Passion, besides your Dreams. (e) win Peoples' Hearts, while winning Trophies. (f) take snaps of your Best times, besides taking up Notes. (g) polish the Human inside you, while polishing your Skills. (h) increase Positivity, while increasing your Knowledge. (i) love your Institute, while loving the Successful Life that you will be Enjoying. Wishing you a fruitful and rewarding journey at IIT Bhilai.

– Dr. Suyash Kandele, The First PhD of IIT Bhilai

Becoming an IITian is a dream for most Indian students. I had the same dream too and IIT Bhilai had helped me to fulfill my dream. Despite being one of the youngest IITs and having limited resources, it has helped me to pursue my M. Tech through a smooth and memorable path. I am very much thankful to all the teachers and staff of IIT Bhilai and also to my batchmates.

– Banashri Karmakar, CSE-18, MTech

Academics at IIT Bhilai

IIT Bhilai fosters and encourages students to excel in their programs of study and recognises the same in several ways. IIT Bhilai follows fractal academics in which the courses are atomized in terms of breadth and depth. Thus, it allows the students to do many basic courses in different departments and specialised courses in greater depth.

Fractal System

In general, courses in IITs are offered in a 14-week long semester-based system. At IIT Bhilai, we adopted a fractal system of academics. In this system, a semester is divided into six fractal segments. Any course offered by the institute can run over multiple consecutive fractal segments and can have a credit of 1, 2, 3, 4, 5 or 6. Normally a course spanning over one fractal segment shall have a credit of 1 while a course spanning over all the six segments shall have a credit of 6.

The fractal system of academics offers scope of various modern mechanisms of imparting education including Tele-education, creation of breadth as well as depth of the subjects, offers flexibility, fosters modern interdisciplinary education, offers a wider choice of electives, encourages research at the undergraduate level, provides scope for strong industry interaction, encourages creativity and offers a bouquet of courses in Creative Arts (music, movie making, fine arts, photojournalism, performing arts, etc.)

Grades

Students earn grades for each course they register for specific credits. The grades are given based on the relative performance of the students. Each grade carries associated numeric points. The academic performance of a student is typically indicated by the Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA). The SGPA is a weighted sum of the numeric points earned by the student for each course registered in a particular semester with weights being the credit of the course whereas the CGPA is the weighted sum of all courses in the program.

Postgraduate and Advanced Courses

The postgraduate students are expected to do advanced courses with research orientation, including exploration and self-study. The undergraduate students are also encouraged to do such courses if they are able to handle the load. The philosophy of the course work at IIT Bhilai is to have less of handholding and to shape the engineers with greater sense of professional independence. Therefore, a major part of the course work is devoted towards research orientation. Each MTech student is expected to carry out at least one year (or maybe longer) duration thesis work. At the PhD level, students are expected to carry out research at a much more advanced level. The postgraduate courses offer the opportunity to indulge in applied part of their education including the development of problem formulation and problem solving techniques.

Congrats for clearing one of the toughest exams of your life. Now, it's the time to celebrate it wisely. You should not just study at IIT Bhilai but also get as much exposure as possible here.
- Amar Budhiraja, DSAI-20

Academics at IIT Bhilai

Institute Innovation Council (IIC)

Institute Innovation Council of IIT Bhilai was envisioned by the Ministry of Human Resources in 2018. The council is responsible for fostering the culture of innovation and start-up/entrepreneurial ecosystem in the institute. Over the last three years the council has overseen incubation and funding of multiple startups led by the students of the Institute. IIC is focused on mentoring students and organising activities in ideation, problem-solving, proof of concept development, design thinking, IPR, project handling and management for students. The goal of IIC is to guide students on a path of innovative thinking and entrepreneurship. The council provides students the platform and opportunity to showcase their ideas and technical expertise to the world.

Academic Calendar

Due to the prevailing COVID-19 situation in the world, and more specifically in the country, the academic calendar for the institute is constantly being updated. The students are encouraged to follow the link https://www.iitbhilai.ac.in/index.php?pid=aca_calendar for getting the updated academic calendar.

Read class notes for clear concepts and give extra time to the field in which you are interested.

Do some management activity for fun.

- Raushan Kumar, ME-20

Institute Facilities

Mechanical Engineering Labs

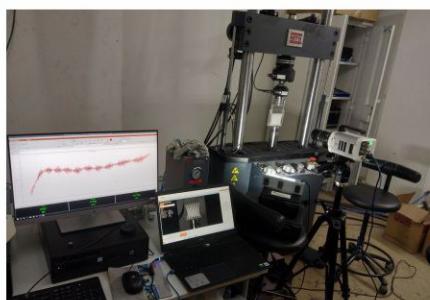

Department of Mechanical Engineering, one of the founding departments of IIT Bhilai, was established in 2016. Presently, the department consists of more than 150 undergraduate students, around 20 postgraduate students, 3 laboratory staff and 11 faculty members. The departmental facilities are broadly divided in the following three disciplines such as (1) Solid mechanics and Machine design, (2) Manufacturing and (3) Thermal and Fluid engineering.

In a very short span of time the department has successfully established some of state-of-the-art facilities highly beneficial for academics and research activities of the UG and PG students. The department currently consists of Digital Fabrication (DFAB) Laboratory, Do-It-Yourself (DIY) Lab, Mechanical Workshop, Material Testing Lab, Metallographic and Materials Characterization Laboratory, Thermal and Fluid Engineering Laboratory and Internal Combustion Engine Laboratory.

In addition to these facilities, department also has some of the advanced research related software and computing facilities such as ANSYS-Fluent, DEFORM, LSDYNA, ABAQUS, GT-SUITE etc.

Friction Stir welding

Universal testing machine

CNC vertical centre(Model: 540V)

CNC turning centre (Model: CLX350)

3D Scanner

IC engine test setup

Contact Angle Measurement

Mojo 3D Printer

Scratch tester

Institute Facilities

Computing Labs

IIT Bhilai provides computing facility to the students for their learning and research comprising activities like course lab, assignments, projects, workshops, academic and placement exams. Our computer labs have 145 desktop machines in two separate labs.

Electrical Engineering (EE) Lab

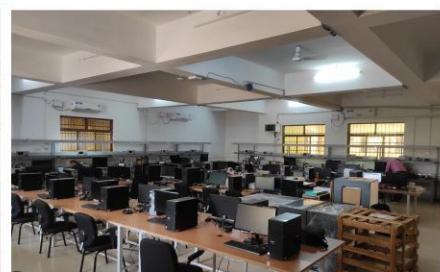

The EE lab is well equipped with various state-of-the-art equipment to allow both the UG and PG students to do their course based labs and research projects in an efficient manner. Specially, dedicated setups are available pertaining to the following verticals: (i) Analog Devices and Sensor-Instrumentation (ii) Communication (iii) Control System (iv) Electrical Machine (v) Embedded Systems and digital electronics, (vi) Power Electronics. Some of the state of the art facilities in these labs comprise, digital oscilloscopes of frequencies up to 500 MHz, LCR meter, USRP B200, Basys3, Zyboz7, Kintex, Zynq based FPGA boards, Opal RT simulator, grid simulator PV emulator and wind emulator etc.

Computer lab

Electrical Engineering lab

Electrical Engineering lab

Chemistry Lab

Chemistry laboratory is well equipped with equipment and facilities for doing research in advanced areas. The Chemistry laboratory of IIT Bhilai is one of the most modernized laboratories of Central India. The Chemistry lab is equipped with state-of-art equipment, such as NMR-60MHz, FTIR-ATR spectrometer, UV-Vis Spectrophotometer, TGA, DSC, GPC, GC-MS, CHNOS-Elemental Analyzer, BET Analyzer, CD Spectrophotometer, Centrifuge, HPLC and Computational Chemistry facilities. The Chemistry laboratory has a vibrant atmosphere to prepare its students to be creative, independent and in spirit of scientific knowledge for cutting-edge research.

Physics Lab

The Physics lab caters to the needs of students at different levels including undergraduate and postgraduate studies. The lab courses are designed to raise the curiosity of students in experiments which are fundamental to understand the laws of nature as well as the basic working principles of Physics. The labs are planned to be dynamic and keep updating with new experiments and tools to remain relevant to modern times. The department of Physics has a well-equipped research labs in solar cells, ultrafast spectroscopy, soft matter and has three high-end telescopes for astronomical activities.

Chemistry lab

Physics lab

Institute Facilities

Central Library

The central library provides access to numerous printed resources such as books, magazines, and journals as well as electronic publications, CDROMs, DVD-ROM, and online databases. Its holdings are updated regularly primarily in the interest of faculty members and students of IIT Bhilai. Currently, the library has a collection of over 5300+ books including text books and reference books. It provides access to popular magazines, selected journals, theses, e-journals, and online databases in Engineering & Technology, Sciences, Humanities, Social Sciences, and Management. IIT Bhilai also has subscriptions to e-Databases such as SciFinder, Web of Science, and MathSciNet. The Institute has state-of-the-art anti-plagiarism software 'Turnitin-Feed Back Studio' that helps students in improving writing skills.

Health Centre

A healthy body houses a happy mind. A positive sense of overall wellness is essential for flourishing and encompasses psychological resilience that enables everyone to enjoy life and to overcome challenges. At IIT Bhilai, health care facilities are active round the clock for emergencies and regular check-ups. This is supported by visiting doctors, staff nurses, and a counselor. They look after medical care facilities as well as the student's mental well-being. An array of proactive and preventive programs including talks, workshops, and activities are run throughout the year for the students. The purpose of these programs along with professional counseling services is to raise awareness and enhance the IIT community's ability to manage both physical and mental health issues, care for oneself, and to develop emotional resilience. Our health centre is further supported by a fully equipped ambulance available on the campus 24*7 and has tie-ups with many multi-specialty and specialized hospitals, for providing the best medical assistance.

Student Mentorship Program

The student mentorship program helps the new students to adjust to the academics, peer pressure, competition and enhance cooperation and know others. In the beginning of the academic year, students are indulged in an orientation program which encourages them to wallow in team-building activities and develop a healthy interaction.

Centre for Career Planning and Services (CCPS)

The Centre for Career Planning and Services is aimed at assisting students in selecting their career paths and to provide ample placements and internships opportunities. In this regard, CCPS conducts several career related sessions for the students in collaboration with several partners. CCPS also undertakes placement preparedness activities like Groups Discussion, Personal Interviews, Coding and Aptitude tests in order to increase the placeability of the students. CCPS prides itself in numerous success stories of amazing achievements right from its inception. The academic excellence at IIT Bhilai is reflected in its student's exemplary record of placements/internships in the corporate, industrial, and engineering sectors. Despite being the youngest IIT, our students have already set to mark their presence in the corporate world.

Last year was really tough but being a part of this institute was something really amazing. Faculty and seniors are so friendly, interactive and helpful here, they helped us to adjust in the new virtual environment. There are various clubs which provide you ample opportunities to polish your skills and do extra curricular activities. Being in these clubs, you will explore your hidden talent apart from studies.

- Harshita Sankhla, ME-20

Council of Student Affairs (CoSA)

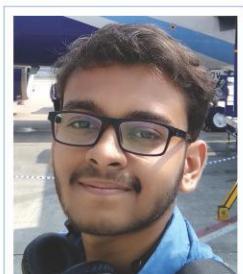

CoSA, the Council Of Student Affairs, comprises of student representatives who promote holistic development of students at IIT Bhilai through different activities and promote effective communication of students' issues to the institute authority. The Council is led by the President and is composed of General Secretaries, viz. Academic, Science and Technology, Cultural and Media, Games and Sports, and nominated members, viz. the Events-Head and Treasurer. The Council is democratically elected by the students of IIT Bhilai, except for the nominated members who are nominated by the elected President. Normally, the members hold office from the day they are elected to the end of March. CoSA strives to provide a plethora of opportunities for hobbies and pursuits, and maintains a administration and the students to identifying and addressing student functional that ensure the fulfillment of Student Community at large. The secretariats strive to continue the same.

to create a culture of diversity, tradition, to exploration and explication in all sorts of liaison between institute's march towards academic excellence by issues. Diverse committees are the needs and the well-being of the General Secretaries along with their

Utkarsh Nigam

Representatives of Council Of Student Affairs (CoSA).

It gives me immense pleasure to welcome you all to IIT Bhilai. You're about to enter into a new phase of your life. There'll be lots of ups and downs in the way, all you need is consistency and faith in yourself. ALL THE BEST! for your future endeavours.

- Jay Soni, EE-20

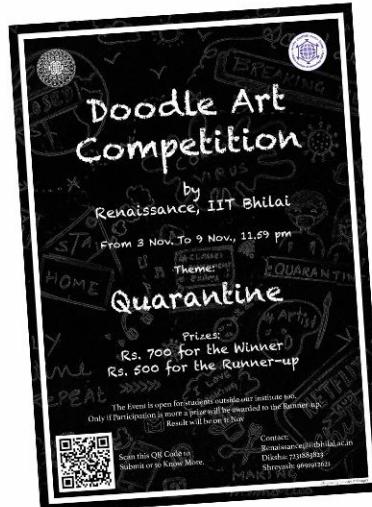

Students' Clubs

Cultural Council

Under the guidance of the General Secretary of Cultural and Media Affairs, the Cultural Council functions with the various clubs and societies to promote cultural activities in the Institute. The clubs at IIT Bhilai provide an opportunity for complete cultural exposure. From bringing back long-lost interests to building up new ones, these clubs and societies provide a platform for all. The skills that students learn in these clubs become lifetime hobbies for some and even profession for some. There are a plethora of clubs and societies to choose from.

Some of the cultural activities organized at the Institute.

Among the societies we have:

- GOALS (General Oratory and Literary Society) - Prarabdha Shukla & Vishesh Thakur
- Film Production Society (FPS) - Sohail Faizan

Among the clubs, we have:

- DesignX : The Digital Arts Club - Chinmay Ratnaparkhe
- Drishya : The Dramatics Club - Ishika Jaiswal
- Renaissance :The Fine Arts Club - Shaleen Malik
- The Beathackers :The Dance Club - Harshita Sankhla
- Swara : The Music Club - Ansh Azad
- Quizzotica :The Quiz Club - Shashwat Johri
- The Pixel Snappers :The Photography Club - Yash Teckchandani

Even after having only virtual interactions with IIT Bhilai ,the opportunities and exposure I am getting are tremendous.The encouraging professors, the vibrant atmosphere and eager beaver peers are really inspiring.I welcome you all to the IIT Bhilai fraternity.

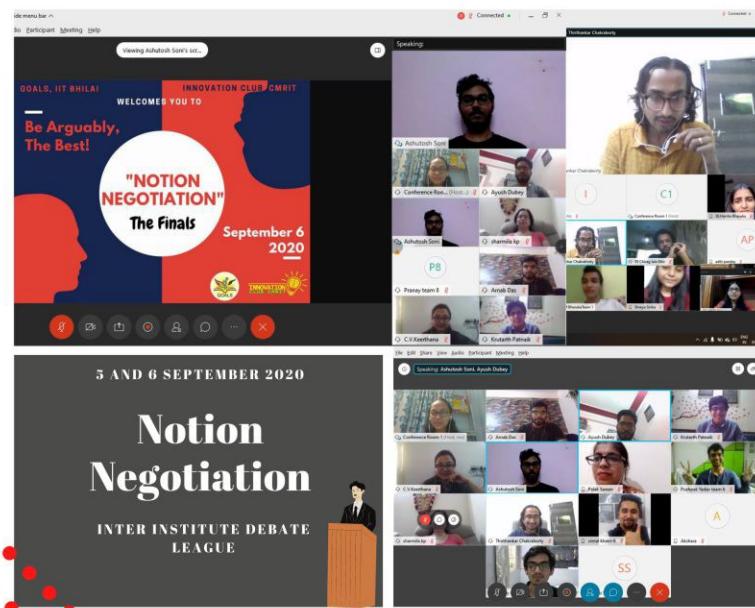

- Piyush Pancholi, CS-20

Students' Clubs

Sci Tech Council

The SciTech council of IIT Bhilai is a significant segment of students' life. Council shelters various clubs and societies that explore various dimensions of science and technology like astrophysics, semiconductors, astronomy, robotics etc. The council is driven by the dynamic elixir of passion and inquisitiveness. These clubs gear up the students to enhance their academic knowledge by molding it to the real world environment. Interest-driven members of the SciTech club often end up gathering knowledge that is way beyond the scope of the academic curriculum by self-learning skills that make them industry-ready. The culture of innovation and experiments, flourish under the guidance of the Council members. The SciTech Council has the following clubs and societies that cover the entire technological domain, along with their respective coordinators and heads:

- Space Exploration Society (SES) – Ansh Gangwar and Tanmay Patil
- Epsilon: The Robotic Club – Mansi Garg
- Electromos: The Electronics Club – Rithvika Pervala
- Ingenuity: The Competitive Coding Club - Harsh Vardhan
- Developer Student Clubs (DSC) - (TBA)
- OpenLake – Kumar Shivendu and Shashwat Jaiswal

A glimpse of the inter-institute debate league.

Congratulations for becoming a part of Eminence. Now is the phase of transition from days of intense hardwork to intense innovation. IITs are the entry gates to the mystical world of technology and blooming creativity. Now that you have reached here, your intuitive duty is to try and explore all there is to do in this world and beyond. Gain immense exposure and elevate your thoughts to a level where even the universe is not a limit. Most important of all, spread your learnings and feed the society with development and prosperity it deserves! Feel free to reach me out!

- Madhur Jain, CS-20

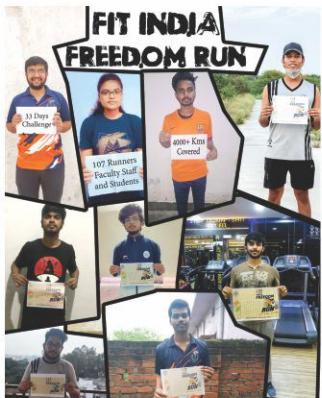

Students' Clubs

Sports

Sports Council, IIT Bhilai has always shown justice with its role and will always be on this path of moulding vibrant players, teams and bringing glory to the Institute. It is undoubtedly the credit holder for developing a jubilant sports' culture at IIT Bhilai. Every year Institute witnesses a vehement concoction of varied sports events planned and organized to enhance the participation and interest of young IITians towards sports. Sports council is one

which is always caring for health and fitness of IIT Bhilai family with it's many physical initiatives. Prayatna, IIT Bhilai's Sports' Tournament, is the most imperative of all its endeavours which include numerous other sports' matchups such as Badminton, Chess, Basketball, Athletics, Volleyball, Cricket and many more.

Sports activities at IIT Bhilai

Information for First Year Students

The degree programs at IIT Bhilai are designed to create responsible technical leaders with innovative thinking. To impart up-to-date knowledge in technical and other allied subjects, we often modify and introduce new electives in our curriculum. Our courses include components such as mini-projects, assignments and surprise quizzes. The curriculum requires sincerity, effective time management, independent decision making, and discussions with other students and instructors. The undergraduate students are trained so that they may find themselves completely independent persons, taking independent decisions in technical as well as personal lives. At IIT Bhilai, the students are given opportunities to shape their technical skills and personal traits. We believe that you shall enjoy the freedom that is given here in innovative thinking beyond the boundaries and produce solutions to several technical problems of our country and the world. In order to support yourself to take this transitional step as natural progression, you should keep a few things in mind such as how to organise your day, the importance of classes, note taking and interactions with faculty and seniors. Judicial use of social media and internet, proper time management are very important.

IIT Bhilai is a ragging free campus and you shall be required to give an undertaking to that effect countersigned by your parents. IIT Bhilai follows a zero-tolerance policy towards ragging. IIT Bhilai also associates senior students as mentors to make your stay as comfortable as possible. Needless to say that you should not hesitate to contact any of the faculty members or staff to address your concerns, and they will be happy to help you.

Hearty congratulations on your commendable efforts and perseverance; Welcome to IIT Bhilai. These 4 years of undergraduate would present you with a plethora of opportunities, here you learn to identify the right opportunity for you whilst exploring diverse spheres. Your seniors have devised a friendly environment and are always there to help those who ask for it. Manage your time effectively, develop the artistic, creative, innovative side of you along with igniting the best of scholastic achievements.

- Anjana Kanan, ME-19

Information for First Year Students

Orientation Schedule

IIT Bhilai organizes an orientation program and it is mandatory for all the first year students to attend it without fail. The importance of the orientation program can't be undermined, since it is designed to make your transition into the Institute as smooth as possible. Due to the prevailing COVID-19 situation in the world, and more specifically in the country, the schedule of the Orientation Program 2021 has not yet been finalized. The students are encouraged to follow the institute website at <https://www.iitbhilai.ac.in/> for updates on the same.

Preparation before you start

Students are requested to bring the following items with them. Essential items can also be purchased at the stalls set up by various shops on the day of orientation in IIT Bhilai premises.

- A four key lock is required for the security of the hostel room which can be shared with other roommates.
- Keep about twenty (20) passport size photographs (3.5cm X 4.5cm) ready with you as these shall be required for various purposes such as for Registration at IIT Bhilai, for a sim card, for opening bank account, for loan application, etc.
- If you are on any medical treatment, bring the relevant prescription and medicines.
- Parental undertaking is required which will be used in case of unusual situations.
- Mattress (either buy or bring), linen, pillow, blankets are required for living in the hostel room.
- Sports shoes, regular shoes, physical activity dress, personal clothing, toiletries, bag, etc. are required for regular as well as for sports activities.
- Bring receipts of all cash payments you made at the time of JEE counseling.

Other than these essential requirements, some of the optional items which may be useful to you are given below. These may also be purchased at Raipur but requires some time.

- A lab coat and safety glasses (especially, for chemistry lab) are required during the lab session.
- An umbrella/raincoat is required during the rainy season (from July to September).
- Mosquito net/mosquito repellent is required and essential for health protection.
- Winter clothes are required as per the suitability of Raipur's weather.
- Cotton clothes are best suited for the summer at Raipur.
- Other items as per use like alarm clock, mobile phone, bicycle, laptop, calculator, table lamp, power extension cords, torch, and medicines can be brought.
- Hobby-related items like camera, sports items, painting, drawing, etc. can be brought as per your interest.
- Please see the checklist below for the documents that IIT Bhilai shall need from you.

Note : Hybrid mode of education with both online and offline teaching is likely to continue. Good quality smartphone or computer will help in this.

Information for First Year Students

Information for First Year Students

Note of Caution

Since you are out from your parental place, there may be chances of catching unwanted infections including Covid 19. It would be better and you may be advised by your doctor to get yourself vaccinated against contagious diseases such as Covid-19, Hepatitis B, chicken pox, measles, typhoid, tetanus, etc.

Suggestions

- While coming to campus, minimize the number of people accompanying you.
- Please follow the Institute specific as well as State and Central Government issued guidelines on Covid pandemic.
- Get yourself vaccinated against Covid-19 infection.

COVID-19 Appropriate Behavior

To minimize the risk of COVID-19 spread, you are advised to observe the following measures at all times:

1. Use face covers/masks.
2. Keep enough physical distancing.
3. Wash hands with soap on a regular basis.
4. Keep and use alcohol-based hand sanitizers.
5. Respiratory etiquette must be practised. This entails using a tissue, handkerchief, or flexed elbow to cover one's mouth and nose when coughing or sneezing, and properly disposing of used tissues.
6. Follow the guidelines issued from time to time regarding COVID-19 by the Central/State Government and by IIT Bhilai as well.
7. Those having symptoms of fever, cough, or difficulty in breathing:
 - a. are required to isolate themselves and take physical rest,
 - b. and follow doctor's advice and get themselves tested.

Information for the parents

IIT Bhilai would like to engage with parents for a holistic development of its students. For many of you, your ward may be staying away from home for the first time and living in a hostel where the comfort levels may not be at par with the ones available at home. However, it is our endeavour to make it as comfortable as possible. As you may appreciate, individual attention at all level to all students is not possible. We have created a strong mentorship program for this purpose.

We do assure our best in shaping the future of your ward with the highest quality of professional education. Also, we would like to give them a connect with the social fabric of the country and an appreciation to the problems in the environment and to find solutions. As a future leader of the professional world, such knowledge will come handy to them. We would like you to be part of the growth story of your ward. We would encourage you to be in touch with us about their well-being and any concerns that you may have. This will be a major phase of students in their life and their transition from a sheltered life to a life of independent thinking and decision making. Your help in making this transition as smooth as possible will be extremely supportive for their endeavours. Feel free to contact us over email or phone in case of any urgent attention.

The City of Raipur

Raipur, the capital of Chhattisgarh, has a diversified and rich cultural legacy. Raipur is situated near the heart of a huge plain known as the "rice bowl of India", which is home to hundreds of rice varieties. The Mahanadi River flows through eastern Chhattisgarh, while the Maikal Hills adorn the state's northwestern corner. Raipur also has a significant historical and archaeological history. Several prestigious educational institutions, including IIM, NIT, AIIMS and IIT are in Raipur and Naya Raipur.

Kudos on cracking JEE Advanced during these tough times when you are mentally exhausted with online classes, stress and the pandemic situation. I know that the path has been perilous till now and trust me, this might be one of the best decisions you've taken till now. Rejuvenate your minds and get ready to embark on a journey filled with fun, memories, opportunities and achievements. Hold your head up high, from now on, you are a part of one of India's most prestigious institutions, IIT BHILAI! All the best!!

- Lahari Sreeja, EE-20

How to reach IIT Bhilai

The transit campus of IIT Bhilai is situated at the following address:

Indian Institute of Technology Bhilai

Government Engineering College (GEC) Campus,
Old Dhamtari Road, Sejbahar, Raipur - 492 015 (C.G.).

One can reach Raipur, by air, train or road. From Raipur, IIT Bhilai can be accessed as follows:

From Swami Vivekananda Airport

Swami Vivekananda Airport is situated in Naya Raipur, Chhattisgarh and is about 15 km from the transit campus. The transit campus of IIT Bhilai can be reached by any authorized or prepaid taxi available at the Airport and it takes about 30 minutes of journey.

From Raipur Railway Station

Raipur Junction railway station is about 13 km from the transit campus. Various transport possibilities like auto-rickshaw and OLA cab can be used to reach the campus. City buses can also be used for transport till Santoshi Nagar bridge which is the nearest bus stop for the city buses. From there, local transport facilities (like auto rickshaw) can be used to reach IIT Bhilai.

From Other Places in City

Pagaria complex bus stand, Pandri bus stand, Ghadi Chowk, Jaistambh Chowk, Telibandha are prominent points in Raipur city which are about 12-16 km from the campus. From each of these places, auto rickshaws and cabs can be used to reach the campus.

Transport Facility

For new students, IIT Bhilai runs buses from various pickup points in the city. The Students/Parents may avail this facility. The detailed timetable for the buses shall be available in the orientation program schedule which is given on the institute website.

Note: Things and arrangements may be different due to prevailing Covid situation.
